Kentucky Society for Respiratory Care

KSRC AWARD NOMINATIONS

Honor excellence in respiratory care. Submit nominations today

Each year, the KSRC celebrates excellence in respiratory care in the Commonwealth of Kentucky. The announcement of these nominees and award winners takes place at the KSRC Making the Connection Conference.

We do this by presenting several awards to outstanding respiratory therapists:

C.A.R.E Award

Commonwealth Award for Respiratory Excellence. Recognizes an outstanding clinician who provides compassionate care and advocates for the patient.

Rising Star Award

Recognizes respiratory therapists with less than 5 years of experience who demonstrate excellence, growth, and leadership.

Extraordinary Educator Award

Recognizes those within the respiratory profession who pass knowledge on to students, including departmental educators.

Leader Award

Recognizes those with formal leadership responsibility who demonstrate exceptional leadership qualities, leading their organization through growth and change.
